

HP Series Pumps Parts List

Graymills

795-07903

The model number located on the pump contains information necessary to order the proper replacement parts. The following example shows how to interpret this model number.

Motor Horsepower	"B" Length	Impeller Dia.
5	15	A = 5"
7.5	24	B = 5-1/2"
10		C = 6"
		D = 6-1/2"

If a replacement motor is desired, locate the Motor HP in the Model Number and obtain locally.

If an impeller is desired, locate the Impeller Code in the Model Number. Then refer to the Impeller Table below to obtain the part number.

If any other part is desired, locate the Pump Series in the Model Number. Then refer to the proper column in the parts lists. Commonly available nuts, bolts, washers not referenced.
