Turbo Biotene™ GM880

Turbo Biotene Concentrate offers a safer alternative to hazardous cleaning chemicals, such as mineral spirits, butyl-based products, caustics, and alkaline detergents. Turbo Biotene Concentrate aqueous solution offers a non-hazardous alternative for a range of industries including industrial maintenance, machining, mining, automotive manufacturing, and printing.

Ultra-powerful natural cleaner/degreaser safe for use with aluminum and non-ferrous alloys

More than a Bioremediating Cleaner.

FEATURES

- Pleasant scent—no harsh fumes or vapors
- Formulated with special corrosion protection
- Hydroxide-free does not interfere with non-ferrous materials
- Non-staining, non-tarnishing
- Replaces hazardous chemicals.
- Quickly removes grease, oils, carbon, ink, and other organic deposits.
- Contains no hazardous glycol ethers and is environmentally responsible.
- Does not contain any phosphates, caustics, chlorinated solvents, or silicone to interfere with the new coatings or paint.
- Safe for use in and around CNC machines and will not cause coolant fowling or corrosion inhibitor breakdown.
- Great cleaning power at room temperature or heated up to 140°F
- Biodegradable
- Includes a mild corrosion inhibitor (concentrations 7:1 or stronger)

SAFE FOR USE WITH

- | | | |
|----------------|-------------------|--------------------|
| • Aluminum | • Vinyl | • Titanium |
| • Copper | • Stainless steel | • Viton |
| • Concrete | • Rubber | • Painted Surfaces |
| • Carbon Steel | • Tin | • Brass |
| • Acrylic | • Bronze | • Cast Iron |

COMPATIBLE FOR USE WITH THESE HEATED UNITS

- | | |
|-----------------------|------------------|
| • Turbo Parts Cleaner | • Ultrasonic |
| • Liftkleen | • Manual Aqueous |
