Inkitene™ GM975

Graymills offers Inkitene GM975, a cleaning fluid to meet cleaning needs in the pressroom and on the manufacturing floor. This is a low VOC, environmentally safe product to remove commonly used water-based and UV Flexo inks, coatings or adhesives as well as general industrial grime.

Ultra-powerful natural cleaner/degreaser safe for use with aluminum and non-ferrous alloys

Specially formulated to remove oils and greases, ink, rubber marks, tar, wax, carbon and soot from aluminum and other non-ferrous alloys.

FEATURES

- Pleasant scent—no harsh fumes or vapors
- Formulated with special corrosion protection
- Hydroxide-free does not interfere with non-ferrous materials
- Non-staining, non-tarnishing
- Ready-to-use or dilute up to as needed
- Non-caustic, non-hazardous, phosphate-free, and butyl-free
- Great cleaning power at room temperature or heated up to 50 °C (122 °F)
- Biodegradable
- Includes a mild corrosion inhibitor (concentrations 5:1 or stronger)
